

Hollymatic Mini-Matic Mixer/Grinder

**POWERFUL MIXING AND GRINDING
BUILT INTO A COMPACT, RUGGED DESIGN**

The Mini-Matic Tabletop Mixer/Grinder is equipped with a smaller 50 pound hopper allowing for lighter loads of product which reduces bodily strain. This space-saving stainless steel ergonomic design is flexible enough to fit on a counter or cart, at a height for easy loading and unloading.

Mini-Matic's 50 pound per minute production capability is excellent for fresh store operations. Quick and easy product runs can be made throughout the day and night to provide a fresher product that your customers will value. Supermarkets and restaurants interested in grinding beef, poultry and pork throughout the day do not have to worry about cross-species contamination. With Mini-Matic's quick cleaning, one tool disassembly design, an easily removable hopper and No. 32/42 grinding head makes cleaning between grinds a snap.
